

Founded in 1999 astraia software gmbh is a medical software company based in Munich (Germany). Our aim is to improve the quality of healthcare by helping doctors with our software solutions. Our challenge is to keep our software up to date with state-of-the-art scientific and technological knowledge. With more than 1700 customers in more than 70 countries using our Obstetrics & Gynecology software solution, including hospitals and research clinics, we are a major world player on this medical field.

Job Description:

We are looking for a motivated senior programmer for our medical database applications (Java based). The ideal candidate will have proven programming experience in Java and excellent communication skills. English is the working language of the development department.

Location: Headquarters in Munich, Germany
Job type: Full time

Key Qualifications:

- At least 5 years of experience in Java programming language.
- Experience or interest in learning other JVM languages (Kotlin, Groovy, etc)
- Experience with relational database systems.
- Experience in test automation with Junit or similar frameworks.
- Good level of written and spoken English.
- Ability to work independently and manage several concurrent projects.
- Excellent team working skills and good knowledge of Agile methodologies.

Nice to have experience with:

- Advance testing tools: Spock, Mockito, PowerMock, Hamcrest, etc.
- Database versioning (Flyway, Liquibase)
- CI/CD: Docker, Gradle, Maven, Jenkins, etc.
- Modern Web Development: HTML5, Javascript (ECMA && Typescript), web Frameworks (Angular/React/Vue), CSS (Flexbox, Less, Sass), etc.
- Medical related project and its standard protocols (DICOM and HL7)

We offer

- Relaxed environment where day-to-day focus is on software delivery process.
- Free German classes for levels A and B.
- Nice multicultural environment where differences are welcomed.
- Scientifically challenging field where our work contributes directly to society.
- Flexible working conditions where individual needs are taken into account.
- Possibility to work with the latest DevOps technologies on migrating our delivery infrastructure (AWS, Terraform, Docker, Liquibase)

If you would like to work with us near Münchner Freiheit (Schwabing) in Munich, send us your application including a detailed CV and a Cover Letter by email. Please indicate your earliest start date and expected salary.

A valid European Community work permission is required
